

Meet Shah

Software Engineer

Experienced Flutter Developer with a strong background in building cross-platform mobile and web apps using Flutter, Dart, and BLoC/Cubit. Skilled in developing scalable, real-time applications with Firebase and REST APIs. Delivered and maintained production apps for both consumer and enterprise use, with successful deployments on Play Store and App Store. Focused on clean architecture, responsive UI, and seamless user experiences.

WORK EXPERIENCE

Internship

InfoLabz Pvt. Ltd

Achievements/Tasks

- **News App** : Built a real-time news application using Flutter to fetch and display the latest updates.

Software Engineer

Savitriya Technologies

01/2023 - Present

Achievements/Tasks

- **OPS CRM** : Developed a responsive Flutter Web application to manage customer service operations for automotive parts and service programs. The system allows users to create and manage service responsibilities (stories), maintain customer profiles, view story history, generate part sales reports, and handle new sales prospects. Implemented using BLoC and Cubit for scalable and maintainable state management.
- **Optimis – Office Management Mobile App** : Contributed to the company's internal mobile application for managing attendance, asset tracking, report submission/approval, and project allocation. Developed core modules like Attendance and Assets using Flutter with BLoC/Cubit, ensuring smooth performance and clean architecture.
- **PlanitEasy – Traveler App** : Designed and developed a cross-platform travel itinerary application to enhance the traveler experience. Enabled users to access daily itineraries, reservation details, and travel documents shared by their advisors. Delivered a smooth, responsive UI with consistent performance across Android and iOS. Published and currently maintaining the app on both Google Play Store and Apple App Store.
