3+ Years Experience 10+ Projects Built 2 App Stores Available for opportunities

SUMMARY

Software Engineer specializing in Flutter, Firebase, and scalable cross-platform applications that reach millions of users across Android & iOS. Experienced in building real-time applications using BLoC/Cubit state management with clean architecture. Delivered and maintained production apps on both the Google Play Store and Apple App Store.

EXPERIENCE

Roles and projects I've contributed to, with a focus on delivery, collaboration, and technical impact.

Software Engineer

Savitriya Technologies · 01/2023 – Present · Ahmedabad, India

OPS CRM: Developed a responsive Flutter Web application to manage customer service operations for automotive parts and service programs — service responsibilities, customer profiles, story history, part sales reports, and new sales prospects. Implemented using BLoC and Cubit for scalable state management. Optimis – Office Management Mobile App: Contributed to the company's internal mobile application for managing attendance, asset tracking, report submission/approval, and project allocation. Developed core modules (Attendance, Assets) using Flutter with BLoC/Cubit. PlanitEasy – Traveler App: Designed and developed a cross-platform travel itinerary app enabling users to access daily itineraries, reservation details, and travel documents. Delivered smooth, responsive UI across Android and iOS. Published and currently maintaining on Google Play Store and Apple App Store.

Flutter · Dart · BLoC · Cubit · Firebase · REST APIs · Play Store · App Store

Intern – Flutter Developer

InfoLabz Pvt. Ltd · Internship · Ahmedabad, India

News App: Built a real-time news application using Flutter to fetch and display the latest updates via REST APIs.

Flutter · Dart · REST APIs

EDUCATION

Degrees and institutions that shaped my technical foundation.

Bachelor in Computer Engineering — Ahmedabad Institute of Technology · 07/2020 – 04/2023

Diploma in Computer Engineering — Swarnim Startup & Innovation University · 07/2017 – 04/2020

SKILLS

Tools, languages, and platforms I use to design, build, and ship software.

Mobile & Cross-Platform

Flutter, Dart, Android, iOS, Cross-Platform App Development

State Management

BLoC, Cubit, Clean Architecture

Backend & Services

Firebase, Firestore, Firebase Auth, Firebase Realtime Database, REST APIs

Languages

Dart, Java, Kotlin, Swift

Development Practices

UI/UX Development, Problem Solving & Debugging, Agile Development, Responsive UI

PROJECTS

Work across products, platforms, and side projects.

Karmas

A dedicated community platform shaping a brighter tomorrow. Currently in active development and live on the Google Play Store.

Flutter · Android · Live App · Community Platform · Play Store

Karmas Chat Module

A dedicated real-time chat module created for the Karmas platform, enabling seamless community communication and messaging.

Flutter · Realtime · Android · Real-time Messaging · Community

PlanitEasy – Traveler App

Cross-platform travel itinerary application enabling users to access daily itineraries, reservation details, and travel documents. Published on Google Play Store and Apple App Store.

Flutter · Dart · BLoC · iOS · Android · Play Store · App Store

IPO Tracker

Mobile app using Flutter to display upcoming, current, and past IPOs with detailed information — IPO dates, company details, issue price, status, and key fundamental data.

Flutter · Dart · REST APIs

Real-Time Chat Application

Real-time chat application using Flutter and Firebase Realtime Database. Enabled instant messaging, user authentication, and seamless UI for smooth communication.

Flutter · Dart · Firebase · Realtime Database · Auth

Canteen Food Ordering

Online food ordering system enabling end users to register, browse an e-menu card, and order food online, streamlining canteen operations.

Flutter · Dart · Firebase

CERTIFICATIONS

Google Prompting Essentials — Google

LANGUAGES

English (Professional Working Proficiency) · Hindi (Full Professional Proficiency) · Gujarati (Full Professional Proficiency)

INTERESTS

Coding · Volley Ball · Basket Ball
